Web Enabled Safety System (WESS)

WESS will . . .

- **No more lengthy HAZARD/MISHAP messages**
- **Improve quantity & quality of mishap & hazard reports**
- **Provide real-time data access for retrieval and analysis**
- **Ability to trend data within your command**
- **Reduce need for duplicative databases at local level**
- **Preformatted Reports**

What you asked for . . .

- **Streamline data entry process**
- **Ability to access data for download and output**
- **Easier navigation**
- **Ability to duplicate reports for similar new entry report**
- **Incremental saves on report entry**
- **Ability to click on each question for help**

What we have done. . .

- **Created a “Turbo-tax” like environment to reduce unnecessary questions**
- **Side bar navigation to jump right to desired entry point**
- **Ability to create custom templates**
- **Incorporated a query tool for retrieval and analysis**
- **Report saves as draft at every page entry**
